

The seventh Columbus Code Camp will be held Saturday, Oct. 14, at the Rev1 Ventures building on Kinnear Rd. As a previous supporter we are reaching out to give you a first opportunity to support this year's event.

Columbus Code Camp provides participating IT professionals with a full day of free professional development. Code camp attendees are Central Ohio's leading software developers and IT contractors--key members of one of the most dynamic IT labor markets. Sponsorship of the code camp is a great opportunity for << Test Company Name >> to engage these professionals, displaying its brand and underscoring its commitment to the betterment of our local IT community.

As the Columbus Code Camp is a volunteer-run organization, none of your sponsorship is spent on administrative fees; 100% goes to supporting the day's events.

In prior years, over 200 software developers attended to benefit from over 25 cumulative hours of learning organized in five tracks. Presentations discussed:

- Web Development
- Operating Systems
- Open-Source Technologies
- Mobile Computing
- Numerical Analysis
- Programming Languages

Our presenters include database administrators, consultants, developers, and more. Attendees represented companies and organizations from Ohio's leading industries, including attendees from sole proprietorships, start-ups and Fortune 500 companies in:

- Insurance and Financial Services
- Utilities
- Telecoms
- Health Care
- Retail

Code Camp counts on sponsors to make this event possible. Your support helps provide audio-visual equipment, meeting amenities, and more. Sponsors also add excitement to Code Camp by providing promotional materials and swag.

You can find a description of the 2017 sponsorship opportunities below.

Thank you for considering sponsoring this year's Columbus Code Camp! We need help from << Test Company Name >> to make this year's Code Camp successful.
